

Gear Trays

Circular Economy

- With a move towards the circular economy we can use our expertise to upgrade your existing lighting installation without the cost and waste associated with a full new lighting install
- We have already completed several projects in hospitals, schools, factories and offices around the UK

- Retrofit gear trays built to suit existing luminaries
- Old LED fittings cleaned and repaired
- Emergency fitting repairs and conversions
- Diffusers replaced
- Casambi wireless conversions
- Tridonic or Philips LED modules and drivers
- All manufactured in the UK
- Fully electrically tested for safety
- 5 year warranty on LED system subject to thermal evaluation
- Sometimes fittings are not repairable due to how they were initially manufactured, in this case we can offer a bespoke replacement service or a product from our current range
